Ahead...

Vitrified
Step & Riser Tiles

STEP & RISER

READY TO INSTALL VITRIFIED STEP & RISER

FEATURES & BENEFITS

Concepts for Designing

Step & Riser by RUDRA are available in Different designs and colors. As High-Quality Tiles, They meet the technical Requirements of Different standards for the Production of stairs. The comprehensive concepts comprising basic, Decor and functional tiles can be used for a durable and aesthetically pleasing design of the entire indoor & Outdoor stair area.

Safety for Senior Citizens, Physical Disables and Children

Safety is always the number-one priority. It is safe enough for senior citizens, physical disables and children. In addition to slip resistance in compliance with the applicable standards, Step Riser Vitrified tiles offer particular durability and also easy-care properties. These full-bodied tiles come with bull nosing and tread lines that make them skid-resistant and much more safer than conventional stairs.

Long Lasting & Easy Maintenance

Step & Riser are full-bodied vitrified tiles, which means they absorb very low water and are impervious to weather or wear and tear induced damage. Fit them and forget them for years of trouble free performance.

Easy Installation

No more handling issues. No more labour-intensive one-site installations, no more wastage costs. Rudra Step & Riser can be easily and speedily installed on site. Chipped and worn out staircases, constant need for polishing and repairs, are all things of the past.

Prefabricated stairs with bearing surface
insulated to reduce impact sound
