MODERN MINIMALISM

Explore sleek and streamlined designs that bring a touch of modern minimalism to your bathroom spaces. Our sanitary ware collection seamlessly integrates with diverse interior styles, creating a harmonious ambiance.

MAKING EFFORTS TO USE
ORIGINAL IDEAS FOR
A BETTER TOMORROW.

CUSTOMER IS OUR PRIORITY

Quality is never an accident but a continues process. Quality is always the result of careful craftsmanship, planning, intelligent efforts and a process-driven action to obtain the desired parameters of the product. Customers being our prime focus thus selection of our product portfolio is carefully done to meet the expectation of the most valued customer. Each and every product is made to suit the needs and comforts of the end user.

INNOVATIVE TECHNOLOGY

Experience the latest in sanitary ware innovation with our technologically advanced fixtures. From water-saving solutions to smart features, our products redefine convenience in your daily routines.

TAILORED COMFORT

Prioritizing your comfort, our sanitary ware offerings are designed for ergonomic use, making every interaction with your bathroom a pleasant experience.

PRODUCT CHARACTERISTICS

All seats and covers are subjected to a weight test.

All seats and covers are subjected to an open/close test.

All WC pans are subjected to an odor leakage test.

Saves water with only 1 Ltr. of water consumption.

Soft Close Seats & Covers
Soft Closing and silent
Special technology

Requires very little space and provides easy bottom cleaning.

Anti Bacterial Glazed

EASY TO CLEAN

FLUSH TECHNOLOGY

TORNADO

Tornado flush system features two powerful nozzle that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush that most toilets are with multiple flushes.

SIPHONIC

The siphonic flush system is also known as the suction flushing system. The siphonic flush system creates the narrow 'Q' shaped trap way. You'll have a clear bowl with a lower chance of skid marks. With the use of advanced technology in flushing.

SIPHONIC WITH TORNADO

The combination of siphonic & tornado will bring the highest quality of hygiene into your bathrooms. With the help of this advanced & one of the easiest to maintain flushing systems, it'll be easier to keep up with cleanliness in just a second. We introduce you to brand new features 4D & 5D flushing system.

WASHDOWN

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

the beauty of
simplicity

How It Work ?

Large water surface offers easy cleaning
Extra large siphon jet for maximum power
Elegant skirted design offers easy cleaning
Large computer designed, fully glazed trap way reduces clogging.

TECHNICAL SPECIFICATION

WALL HUNG BASIN

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

INSTALLATION OF LAVATORY

Please Note : Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, Fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot on the inside of the cut line.

For Wood Counter tops:

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

For All Installations:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.
